Aka Jimmy R.E.P.S.
PO BOX 1179
Mesa, AZ 85211

Dear Jim,

As a professional strength coach, I come in contact with a great number of companies and salespeople that market exercise equipment. It is rare to find people that have a complete understanding of the finer points of equipment design.

I am very selective about those that I give referrals to, especially since I deal with many celebrity athletes in the NHL and NFL. I need to be confident that the people I associate with understand my theology and expectations.

Since we've met, you have proved to me that you have a professional organization that represents high quality lines of exercise equipment, a thorough understanding of strength training, and the ability to match the end user up with the proper exercise equipment. I am also pleased with your service staff. Your crew has always been prompt, professional and thorough with their work.

I encourage anyone in the market for strength and fitness equipment to share the confidence that I have in Jimmy R.E.P.S.

Sincerely,
